

Sanford Vaccine Update: Facts & Controversies

December 10, 2009
Schroeder Auditorium

PURPOSE/OBJECTIVES:

To provide current information regarding the use of vaccines and their related controversies.

- ☐ Discuss the current epidemiology, prevention, and treatment of swine influenza infections in humans.
- ☐ Examine adult risks in the U.S. for vaccine preventable illness.
- ☐ Examine current controversies regarding modern day vaccines
- ☐ Explore data refuting alleged serious vaccine adverse events
- ☐ Locate at least one resource each for high risk persons and international travel.
- ☐ Describe the part that the Vaccine Adverse Event Reporting System (VAERS) plays in establishing causation between an adverse event and receipt of a vaccine
- ☐ Locate at least two resources that can be used by providers when providing patients and parents information about the risks and benefits of vaccines as compared to the risks of vaccine-preventable disease

AGENDA

11:30 a.m. – 1:15 p.m.

Registration

11:45 p.m. – Noon
